Commissioner for Patents

The following attached Examiner's Amendment are being sent due to a syntax error found in the original claim 30.

The original claim 30 has two periods.

Therefore, a correction is made by way of the Examiner's Amendment. (see Attachment)

SHAWN AN
PRIMARY EXAMINER

Examiner's Amendment

1. An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to Applicant, an amendment may be filed as provided by 37 CFR 1.312.

IN THE CLAIMS:

A) Please amend claim 30 as follows:

30. (currently amended) A method of partitioning a streaming data, the method comprising:

quantizing the streaming data to generate a first quantized signal;

quantizing the first quantized signal to obtain an even-approximated coefficient;

obtaining an odd-remainder coefficient;

variable-length coding the even-approximated coefficient and the odd-remainder coefficient; and

outputting a data-partitioned stream based on said variable length coding[.];

partitioning the data-partitioned stream into a plurality of data streams;

variable-length coding the respective data streams;

obtaining an even-approximated coefficient and an odd-remainder coefficient through second-inverse quantization to output a restored video signal, based on a first quantization;

calculating a difference signal based on the first-quantized signal; and

variable-length coding the calculated difference.

REMARKS:

2. Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Shawn S An whose telephone number is 571-272-7324.
